How powerful would it be if you could combine these elements in to a single, thrilling attraction sure to keep customers coming in—and coming back time and time again?

You know the answer. And QubicaAMF has the solution:

MAD GAMES Exclusive Mad Games*

Four stimulating Mad Games offer a faster bowling pace and simpler ways to score, compared to the traditional 10-frame bowling game, topped by high-quality 3D graphics. Mad Games are perfect for families, teens & young adults and groups alike. They make it easy for players to play fast and keep coming back for more!

SKILL GAMES Exclusive Skill Games*

Let your players test their skills! Shorter than a full game, these games keep the pace fast and exciting. Good for players of all skill levels.

YouToons Exclusive YouToons*

Take your players inside the game. Then sit back and watch them become diehard fans. Once they snap pictures of themselves right at the LCD bowler console, YouToons merges those images into the scoring animations, turning your customers into hilarious characters on the screen as they play. YouToons is great for corporate or team-building events, and even includes a "boss" character showcasing that critical role in the organization. YouToons also allows you to create customized giveaways for bowlers to bring home, keeping them engaged in a way no other entertainment system does.

*Available in both Express and Party Modes.

Exclusive Facebook® GameConnect**

Put your players in touch with the app they know and love—right from the lanes. With Facebook GameConnect they can Like and Check In at your center. And can publish game events directly to Facebook, too.

Perfect for teens and young adults, it keeps them involved in the game while letting them share on Facebook, without interrupting play. Plus, enable them to post exclusive content from your center—something they couldn't accomplish with a smartphone alone.

Exclusive Lane Chatter**

Nothing gets players excited and bowling longer than having fun and socializing with friends. BES X extends their ability to meet people, chat and text with other lanes—right from the SuperTouch LCD bowler console.

Great for teens, young adults and kids alike, enhancements like emoticons help people break the ice, meet new friends, and expand their social reach. The result is a better social experience, more time spent in your center and more revenues for you.

Facebook® and  are registered Facebook trademarks.

Exclusive Themed Birthday Parties**

Every entertainment center owner knows that birthday parties are huge money-makers. Our Themed Birthday Parties are one of the best ways to capitalize on this opportunity.

Your customers can choose from three entertaining themed birthday parties, all featuring dedicated graphical environments and games to suit their celebration. Plus, you can take a photo of the birthday child and send this to the overhead monitor.

Exclusive On-Lane Pictures and Grids**

Prove to partygoers that it really is all about them. These new grids let them take the ultimate “selfie,” using their favorite image as the scoring background—either by loading a picture at the front desk, or by taking one right at the lane with the camera-equipped LCD console. Or, load your own backgrounds or logos to welcome groups and truly personalize the experience.

**Available in Party Mode.
